

Get Involved Overview

{moszoomthumb imgid=277 itemid=211 style_m=2 }POA Educational Foundation has initiatives in various fields as guided by our vision outlined on this web site. You can browse various initiatives here and decide which project you would like to contribute to and how.

Currently we are looking for volunteers in following fields:

- PR/Communication Consultant: You will get to work with president of a very successful marketing/PR firm who volunteers her time with the foundation.

- Website Consultant: Decent grasp of web-design and basic development. Knowledge of any Content Management System (CMS) will be helpful.

- Digital Photographer

- We need a lot of helping hands and brains for planning and executing Project Beyshick 2007 (July 14-21). We especially need lots of helping hand during the third week of July 2007.

We prefer volunteers who are entrepreneurial by nature. We are a foundation that operates very much like a startup business venture. We look forward to your involvement.
