

## Liberal Democracy Nepal

Liberal Democracy Nepal (LDN, Nepal Study Center at UNM), is a forum consisting of scholars, professionals, and policy practitioners with a mission to promote liberal democracy in Nepal. Its mission is to spark and concentrate debate, opinion, ideas, and proposals around the theme of promoting liberal democracy in Nepal. In Nepal as elsewhere, prosperity and economic development depend on peace, freedom, good governance, political stability and people's participation. A well functioning democracy prepares the ground for prosperity by ensuring economic and political freedom. LDN believes that a free, peaceful, and democratic Nepal is in the best interest of all. This forum is dedicated to conducting broad-ranging dialogue and discussion among Nepal scholars and practitioners on issues relating to the transformation of the state, politics, economics, and social institutions in Nepal in a way that addresses key long-term issues.
